SECTION A

REVENUE AND APPROPRIATION SUMMARIES

1) Source of Funds and Use of Funds

These pie charts illustrate the diversity of the City's revenue sources and appropriations. The first page focuses on revenues and breaks down the major revenue sources supporting General Fund operations. The second page illustrates appropriations and the distribution of General Fund resources among departments.

2) Citywide Comparison of Revenues and Appropriations

This chart compares the total adopted revenues and appropriations for all City Funds for FY 2011-12 and FY 2010-11, as well as actual revenues and expenditures for FY 2009-10.

3) Citywide Comparison of Revenues and Appropriations by Category

This chart compares the total adopted revenues and appropriations for all City Funds for FY 2011-12 broken down by revenue and appropriation category.

4) General Fund Revenues and Appropriations Comparison

A bar graph compares and contrasts the growth of General Fund revenues and appropriations from FY 2007-08 through FY 2011-12. The line graph below compares these figures to the population of Burbank, illustrating per capita General Fund revenues and appropriations over the past five years.

5) General Fund Projected Revenues and Expenditures

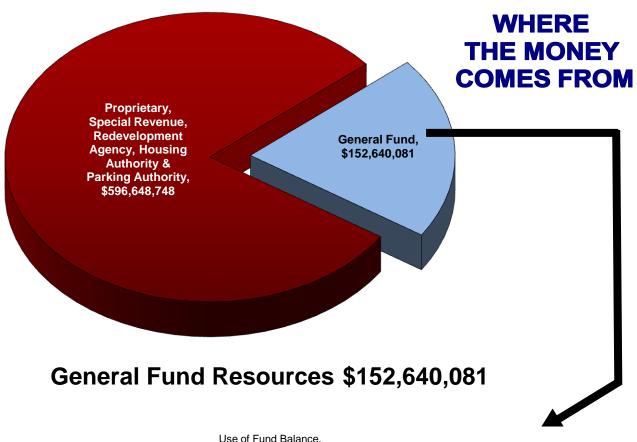

This chart is a cash flow projecting future year General Fund revenues and expenditures through Fiscal Year 2015-16.

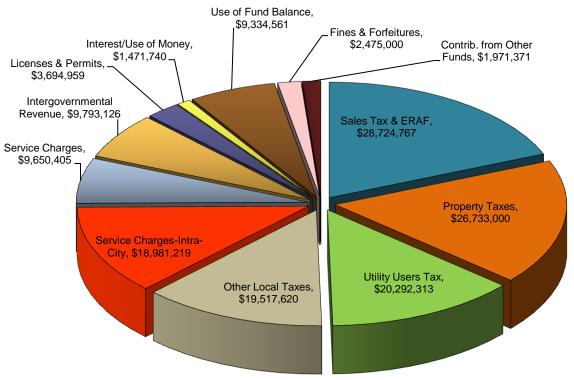

6) General Fund Forecast Parameters

A list of forecast parameters utilizes current economic data and trends to project revenue and expenditure categories through FY 2015-16.

5-Year Trend of Recurring General Fund Revenues and Recurring General Fund Appropriations (\$ in millions)

This chart illustrates a five-year trend for General Fund Revenues and General Fund Appropriations taking the City's population into account. After two consecutive years of decrease due to the economic downturn, the per capita appropriations and revenue trend line show a slight increase over the past two years, reflective of a slow economic recovery.

SECTION B

ADOPTED APPROPRIATIONS

6) Appropriations Summary for All Funds

This table presents the FY 2011-12 budget by fund, including the General Fund by department, and incorporates a five-year history showing actual expenditures from FY 2006-07 through 2009-10 and the adopted FY 2010-11 and FY 2011-12 budgets.

7) FY 2011-12 Department Budgets

This table provides an overview of the City's adopted budget with detailed information as to expenditures by department, cost center and fund, and delineates expenditures by: Salaries and Benefits; Materials, Supplies & Services; Capital Outlay; Capital Improvements; and Operating Transfers.

8) Non-Recurring General Fund Appropriations

This Table summarizes "one-time" appropriations related to the General Fund which are made using non-recurring revenues.

9) Adopted Fund Transfer Summary

This table outlines the adopted transfers between funds.

10) Outstanding Bonded Debt Service Requirements

This section includes a description of debt service funds and delineates information by bond type as to the bond issue date, maturity date, amount issued, outstanding debt and the purpose of the bond issuance. A legal debt limit calculation is included and two tables provide an overview of the City's outstanding bonded indebtedness.

11) Capital Improvement Program - Summary of Project by Fund

This table summarizes Capital Improvement Program (CIP) projects by fund indicating any prior year appropriations and if the project will require multi-year financing. Projects with unfunded components have also been incorporated. The included graphs show FY 2011-12 CIP appropriations by project category and projected appropriations through FY 2015-16.

Outstanding Debt Service Descriptions

Debt Service Funds are a recognized fund type in generally accepted governmental accounting principals. These funds account for the resources allocated toward debt service payments. When a debt schedule is set up, the amortization resembles mortgage payments in that principal payments typically increase and interest payments typically decrease over the life of the outstanding debt. All bonded indebtedness is administered by trustees as designated in the bond's Official Statement. Debt service payments and related administrative fees are budgeted annually for each of the relevant funds.

The City of Burbank has debt service obligations for the following funds:

General City General Fund (Fund 001)

Enterprise Funds Water Reclamation and Sewer (Fund 494)

Burbank Water and Power (Funds 496 and 497) Refuse Collection and Disposal (Fund 498)

Redevelopment Agency Golden State Project Area (Fund 201)

City Centre Project Area (Fund 202) West Olive Project Area (Fund 203)

South San Fernando Project Area (Fund 204) Community Facilities District (Fund 207) Public Financing Authority (Fund 320)

Bond rating agencies, such as Moody's Investor Services and Standard & Poor's review the debt landscape for the City on a regular basis and rate the bonds accordingly. Factors such as the local economy, taxpayer base and sufficient debt coverage levels influence the creditworthiness of bonds issued.

The City Council adopted a series of Financial Policies on January 9, 1990. These policies serve as a foundation to guide elected officials and city staff in managing the City's resources. On January 2, 1996, these policies were revised and presented for Council adoption. The financial policies were again revised and adopted by the Council on May 28, 1998. The most recent financial policies were adopted by Council on June 14, 2005. A few of these policies address the handling of matters relating to Debt Service Funds.

- Financial Policy # IV addresses the Enterprise Fund's issuance of debt and in summary requires that all "Enterprise Funds have revenues (customer charges, interest income, and all other income) sufficient to meet all cash operating expenses, depreciation expense, and prescribed cash reserve policies per financial policies as recommended for each enterprise activity. Additionally, each Enterprise Fund will maintain debt service coverage requirements set forth in any related bond covenants."
- Financial Policy # XI states that the City "will use long-term financing methods or cash accumulated in excess of policy requirements for major capital improvements and acquisitions. These improvements will be planned via the annual capital improvement plan process." This policy notes that local governments typically fund capital improvements through the issuance of municipal bonds. As a general practice, "...a municipal bond issue's maturity should approximate the useful life of the asset being financed."

The Comprehensive Annual Financial Report contains a Summary of Significant Accounting Policies describing the Burbank Redevelopment Agency and notes that "California community redevelopment law provides that, on adoption of a redevelopment plan, all future incremental tax revenues attributable to an increase in the tax base within a project shall be paid into a special fund of the Agency to pay the principal and interest on loans, advances and other indebtedness of the Agency." As indicated above, the City has designated four Debt Service Funds in addition to a Community Services District (CFD) debt service fund for the Redevelopment Agency.

This section contains a table summarizing the estimated debt service for the current fiscal year and a list of overall outstanding debt over the life of each bond issue as of June 30, 2011. A description of each City of Burbank bond obligation provides details on the original principal amount, the outstanding principal remaining as of June 30, 2011, the maturity date, and a brief description stating the purpose for issuing the bonds. Bond payments are estimated at \$14,465,000 for principal payments and \$19,826,035 for interest obligations for a total of \$34,291,035 for Fiscal Year 2011-12. Bond obligations are estimated at \$601,682,541 for principal and interest payments from Fiscal Year 2011-12 through Fiscal Years 2043-44. The current debt service obligation for all years totals \$601,682,541.

During FY 2000-01, the Public Service Department changed its name to Burbank Water and Power to better reflect the functionality of the department. Bonds listed in the Burbank Water and Power summary retain the original issue name.

During FY 2002-03, the City remarketed the \$25 million Golden State Subordinated Tax Allocation Bonds Series 1993 to repay a loan from the General Fund for needed capital projects.

During FY 2003-04, the City of Burbank purchased in lieu of redemption \$8.795 million of the 1993 debt relating to the Golden State Project area as well as all of the City Centre 1993. This purchase in lieu of redemptions will save the City a significant amount of money in terms of interest savings. The City also issued \$25.1 million in pension obligation bonds (POBs) to refund an Unfunded Accrued Actuarial Liability for the Police and Fire safety employees. In June 2006, the City converted these bonds from a variable to a fixed rate due to rising variable interest rates. FY 2006-07 represented the first full year that the fixed interest rate took effect.

During FY 2004-05, the City issued \$19 million in debt for its Water Reclamation and Sewer fund to partially refund the 1995A series (fully paid off in FY 2005-06) and to make improvements in the sewer system.

During FY 2005-06, the Community Facilities District No. 2005-1 issued \$6.2 million in bonds to finance a parking structure containing 278 public parking spaces.

During FY 2006-07, the Public Financing Authority issued \$52.3 million in bonds to purchase a portion of the Golden State Redevelopment Project Tax Allocation Bonds, 1993 Series A. Those bonds provided funds for the acquisition and construction of various projects within the area.

During FY 2007-08, the 2007 Series A Golden State bonds were issued to refund a portion of the Agency's outstanding revenue bonds, fund another purchase-in-lieu of redemption of the Agency's subordinated tax allocation bonds, and to pay for public capital improvements. This transaction saved the Agency nearly \$1.5 million through cost of money savings and debt service payment savings.

During FY 2010-11, Burbank Water and Power Water Revenue/Refunding Bonds, Series 2010A and Burbank Water and Power Water Revenue Bonds, Series 2010B (Taxable Build America Bonds) were issued to refund the 1998, 2001 and 2002 bonds. These bonds will also be used to finance future capital construction.

CIP Project Summary

FY 2010-11 through FY 2014-15

SECTION C

COMBINED FUNDS STATEMENTS

This section contains three sets of tables:

12) Projected Change in Financial Position for Governmental Funds

This table provides an overview of each Governmental Fund, including each fund's Estimated Beginning FY 2011-12 Fund Balance; Estimated FY 2011-12 Revenues; Adopted FY 2011-12 Appropriations (including a breakdown of those appropriations being supported by Use of Fund Balance and Revenues); and, Estimated Ending FY 2011-12 Fund Balance. For the purpose of this table Governmental Funds are defined as all funds except the City's Proprietary Funds (seven Internal Service Funds and four Enterprise Funds).

13) Projected Change in Financial Position for Proprietary Funds

These tables provide an overview of each Proprietary Fund's Operating Budget (revenues and expenses) and Working Cash Budget (use of estimated unrestricted cash and restricted cash). Although these tables are not as easy to read as the Governmental Funds table, it provides the reader with a mechanism to gauge the projected change in each Proprietary Fund's cash balance (not to be confused with "retained earnings" [fund balance]) from the beginning of the fiscal year to the end of the fiscal year. Proprietary Funds are defined as the City's seven Internal Service Funds and four Enterprise Funds for purposes of this table.

14) Summary of Reserves for All Funds

This table provides an overview of each fund's Restricted Reserve Accounts; Unreserved Designated Accounts; and Unreserved Undesignated Accounts, estimated as of June 30, 2011.

^[1] All of the figures contained in this table represent staff's estimates as of June 30, 2011, rounded to the nearest thousand. The actual figures will likely vary, and will be known officially when the 2010-11 Comprehensive Annual Financial Report (CAFR) is completed in December 2011. The CAFR should be consulted for explanations of the various reserve account headings and individual General Fund reserve line-items listed in this table.

SECTION D

APPROPRIATIONS LIMIT

This section contains summary information on the background of the Gann Appropriations limit for appropriating the proceeds of taxes. In addition, the methodology for setting the appropriations limit is shown.

CITY OF BURBANK GANN APPROPRIATION LIMIT FY 2011-12

The voters of California, during a special election in 1979, approved Article XIII-B of the California State Constitution. Informally known as the "Gann Initiative," Article XIII-B provides limits regarding the total amount of appropriations in any fiscal year from "the proceeds of taxes." Every year the City Council adopts via resolution an appropriations limit for the proposed fiscal year.

The State Legislature, in 1980, added Section 9710 to the Government Code, providing that the governing body of each local jurisdiction must establish, by resolution, an appropriations limit for the following year. The appropriation limit for any fiscal year, was equal to the previous year's limit, adjusted for population changes and the changes in the US Consumer Price Index (or California per capita personal income, if smaller). The necessary statistical information is provided by the California Department of Finance.

However, the original Article XIII-B (Proposition 4) and its implementing legislation were modified by Proposition 111 and SB 88 by the voters in June 1980. The changes were incorporated into the FY 1990-91 and FY 1991-92 Appropriations Limits. Beginning with the FY 1990-91 Appropriations Limit, a city may choose annual adjustment factors. The adjustment factors include the growth in the California Per Capita Income, or the growth in the non-residential assessed valuation due to construction within the City and the population growth within the county or the city. The revised annual adjustment factors were applied to the FY 1986-87 Limit and each year in between in order to calculate the current year's Limit. However, the Limits for FY 1986-87 through FY 1989-90 were not affected.

The following compares the difference between Burbank's FY 2011-12 Appropriations Limit and the estimated proceeds of taxes in the budget. It reflects a significant gap of \$48,161,105. The City remains well below its Appropriations Limit for FY 2011-12.
